Courses of Studies for Master of Education (M.Ed.)

STATUS & REGULATION	1
--------------------------------------	----------

COMPULSORY SUBJECTS

PAPER - 1 Foundations of Education	6
PAPER - 2 Advanced Educational Psychology.....	8
PAPER - 3 Research and Statistics in Behavioral Sciences.....	11
PAPER - 4 Testing and Evaluation in Education.....	13
PAPER - 5 Curriculum Planning & Development.....	15

OPTIONAL GROUPS (COMPONENT II)

GROUP-A

EDUCATIONAL ADMINISTRATION AND MANAGEMENT

PAPER - 1 Educational Planning & Development	OAI.....	17
PAPER - 2 Educational Administration & Supervision	OAI.....	19
PAPER - 3 Management in Education	OAII.....	20
PAPER - 4 Individual Study/Functional English/Computer in Education & Research		22

GROUP-C

EVALUATION & GUIDANCE

PAPER - 1 Guidance & Counseling	OCI.....	29
PAPER - 2 Educational Psychological Testing	OCII.....	31
PAPER - 3 Statistics in Education	OCIII.....	33
PAPER - 4 Individual Study/Functional English/Computer in Education & Research		22

GROUP-D

EDUCATIONAL PSYCHOLOGY

PAPER - 1 Theories of Learning & Adjustment	ODI.....	35
PAPER - 2 Theories of Personality Development	ODII.....	37
PAPER - 3 Abnormal Psychology	ODIII.....	39
PAPER - 4 Individual Study/Functional English/Computer in Education & Research		22

COURSE OF STUDY:

The M.Ed. Programme aims at preparing teachers, Educational Administrators, Teacher Educators, Educational Planners, Educational Psychologists, Guidance Counsellors, Researchers, leaders in specific areas of Professional Education in the Ideological Society of Pakistan, The Programme will extend over 3 terms. Five courses will be compulsory. 4 courses in the area of One Elective group. for specialization & Research study i.e. Thesis followed by Viva-Voce, Examination.

STATUTES:

1. The Course of studies in Master of Education shall extend over 3 Components. i.e.
 - a) Compulsory courses.
 - b) Area of Specialization.
 - c) Research studies.
2. Only those Candidate who possess at least 2nd. Class degree of Bachelor of Education (B.Ed) will be eligible for admission as per rules of the University of Karachi.
3. Admission will be given purely on merit basis i.e. Marks in B.Ed. Plus admission test and interview.
4. The examination of theory papers shall consist of One hundred (100) Marks each.
 - a) Internal Evaluation. = 40 marks.
 - b) University Examinations. = 60 marks.
(Papers of 3 hours duration).
5. Assessment of Research study (thesis) will be conducted by Internal Examiner and External Examiner who will be appointed by the University of Karachi. Marks for thesis will be 100, and for viva-voce examination marks will be 100.

There will be a comprehensive viva voce carrying 100 marks.

REGULATION FOR M.ED. COURSES

The Programme of Instruction for Master of Education. Based on Terminal system will spread over 3 terms. The break up of the course will be as under:-

FIRST TERM:

- * Admission, Registration and Planning.
- * Teaching.
- * Session Test/Seminars.
- * Terminal Examination/Mid-session Break.

2 weeks.
18 weeks.
2 weeks.
2 weeks.

SECOND TERM:

- * Teaching
- * Summer Vacation
- * Terminal Examination

18 weeks.
8 weeks.
2 weeks.

THIRD TERM:

- * Submission of thesis.

12 weeks.

Total

64 weeks.

2. The Examination in the theory of Education will consist of Nine Papers as detailed below:-

FIRST TERM:

COMPULSORY PAPERS: Int. Eval. Term. Exam. TOTAL

Paper. I Foundation of Education.	40	60	100
Paper. II Advanced Educational Psychology.	40	60	100
Paper. III Research and Statistics in Behavioural Sciences.	40	60	100

OPTIONAL PAPERS

Paper I. Optional Groups.	40	60	100
Paper II. Optional Groups.	40	60	100

SECOND TERM:

COMPULSORY PAPERS:

Paper. IV Testing and Evaluation	40	60	100
Paper. V Curriculum Planning and Development.	40	60	100
Paper. VI Research Study	100	100	200

OPTIONAL PAPERS

Paper III. Optional Groups.	40	60	100
Paper IV. Optional Groups.	40	60	100

THIRD TERM:

RESEARCH STUDY:

Thesis.	50	50	100
Thesis Viva Voce.	50	50	100
Comprehensive Viva Voce	50	50	100

2. The Examination in the theory of Education will consist of Nine Papers as detailed below:-

OPTIONAL GROUPS:

Any one of the following group can be taken as an area of specialisation which will consist of Four papers.

GROUP-A EDUCATIONAL ADMINISTRATION AND MANAGEMENT

- I Educational Planning & Development.
- II Educational Administration & Supervision.
- III Management in Education.
- IV Individual Study/Functional English/Computer in Education & Research.

GROUP-B CURRICULUM PLANNING & DEVELOPMENT

- I Curriculum Planning & Development.
- II Innovation in Curriculum Strategy.
- III Secondary School/Curriculum.
- IV Individual Study/Functional English/Computer in Education & Research.

GROUP-C	EVALUATION & GUIDANCE
I	Principal and Techniques of Educational & Vocational Guidance & Counselling.
II	Educational Psychological Testing.
III	Statistics in Education.
IV	Individual Study/Functional English/Compulsory Education & Research.
GROUP-D	CURRICULUM PLANNING & DEVELOPMENT
I	Theory of Learning & Adjustment.
II	Theory of Personality Development.
III	Abnormal Psychology.
IV	Individual Study/Functional English/Compulsory Education & Research.
GROUP-E	HISTORICAL & PHILOSOPHICAL DEVELOPMENT OF EDUCATION
I	Philosophical & Sociological Foundations of Education.
II	Problems of Higher Education in Pakistan.
III	Development of Education in Western & Muslim World.
IV	Individual Study/Functional English/Compulsory Education & Research.
GROUP-F	PLANNING & DEVELOPMENT IN EDUCATION.
I	Educational Planning & Development.
II	Plan Implementation.
III	Statistics in Education.
IV	Individual Study/Functional English/Compulsory Education & Research.
GROUP-G	PLANNING & DEVELOPMENT IN EDUCATION.
I	Teacher Education in Pakistan.
II	Student Teaching in Schools.
III	Educational Technology.
IV	Individual Study/Functional English/Compulsory Education & Research.
GROUP-H	ELEMENTARY EDUCATION
I	Problems & Prospects of Elementary Education.
II	Child Development.
III	Educational Technology.
IV	Individual Study/Functional English/Compulsory Education & Research.

GROUP-I**SECONDARY EDUCATION**

- I Secondary Education In Pakistan.
 - II Adobesent Development.
 - III Educational Technology.
 - IV Individual Study/Functional English/Compulsory Education & Research.
- a) Minlulumum Percentage In each subject to pass Is 45%
 - b) Second Class 50% in aggregate.
 - c) First Class 70% in aggregate. (Provided that the Candidate secures 45% In each paper.)

PASS MARKS

- a) To pass the examination, the candidate will be required to get the 50% in aggregate. If the candidate fails to get the aggregate, he will be allowed to reappear in one or Two Papers.
- a) No eligibility rules shall apply.
- c) Condonation will be admissible in not more than two heads of passing subjects to the minimum of 10 marks.
- d) Previous Internal Examination will be carried over in the Examination and the candidate shall not be allowed to reappear in the Internal Examination Test etc.

Ex-Student, a candidate who fails in M.Ed. Terminal Examination will be allowed to reappear at two subsequent examination but he shall appear in the course prescribed in the course of the particular year i.e which he/she reappear.

RANK

A candidate availing the concession of reappear shall be eligible for the class, but not for the rank.

ATTENDANCE

Attendance in classes is compulsory those who have failed to put in 75% attendance will not be eligible to appear in the University Examination.

M. ED. PAPER.1 (COMPULSORY)

FOUNDATION OF EDUCATION

AIMS AND OBJECTIVES:

After the completion of courses, the students are expected to:-

1. have a comprehensive knowledge of Ideological, Philosophical, Sociological and Psychological Perspectives of Education.
2. be able to develop a sense of Islamic foundation of Education.
3. appreciate the contributions of Muslims Philosophers rendered to the causes of Education.
4. be aware of the thought of the Western Philosophers and their impact on Education.
5. be able to make a critical assessment of the present system of education in Pakistan.
6. enable the students to make proper use of Education in the Islamisation of Pakistan Society.
7. develop the sense of duty and professional ethics.

COURSE CONTENT:

A. A review of Ideological, Philosophical, Sociological and Psychological foundations studied at B.Ed. Level.

- i) Ideological.
- ii) Philosophical.
- iii) Sociological.
- iv) Psychological.

B. ISLAMIC IDEOLOGY & EDUCATION.

Meaning of Education in the light of Islamic teaching.
Educational values in Islam. (Ethical, Social Economic, Political).

Muslim contribution to Educational Philosophy with special reference to the Educational ideas of Imam Ghazali, Allama Ibne Khaldun, Allama Iqbal. (As an Educationist, Philosopher, Psychological and Sociologist).

Ideology of Pakistan with reference to historical and philosophical perspectives.

Metaphysical bases of Education in Pakistan.

A critical Assessment of the present system of Education in Pakistan.

C. WESTERN PHILOSOPHY OF EDUCATION:

The meaning & significance of Philosophy of Education.

Study of Philosophy in relation with Psychology, Religion, and Science.

Systematic Philosophies of Education.
Comparative study of Idealism, Realism and Naturalism.
Democracy & Education. - Pragmatic view.

M. ED. PAPER II. (COMPULSORY) ADVANCED EDUCATIONAL. PSYCHOLOGY

OBJECTIVES:

After completion of this course the students are expected to:-

- a) Understand meaning, significance and scope of psychology in the field of Education and apply in different educational situations
- b) Study and guide adolescence problems at secondary and higher secondary stages.
- c) Create conducive teaching & learning environment in the light of various learning theories.
- d) Apply the knowledge of learning theories into practice.
- e) Apply the basic skills in school environment.

CHAPTER.I SIGNIFICANCE OF PSYCHOLOGY IN EDUCATION

- a) Relationship between Psychology and Education.
- b) Contribution of Educational Psychology to:
 - i) Theory of Education.
 - ii) Practical Teaching.
- c) Research methods in Educational Psychology:
 - i) Introspection ii) Observation iii) Clinical
 - iv) Differential v) Experimental.

CHAPTER.I THE PROCESS OF LEARNING.

- a) The nature of learning and its bases
 - i) Physiological
 - ii) Psychological iii) Environmental iv) Individual.
- b) Learning theories and practice.
 - a comparative study.
 - i) Connectionism (Watson Thorndike)
 - ii) Conditioned reflex (Pavlov. Skinner)
 - iii) Cognitive approach (Tollman. Kohler. Piaget)
- c) Motivational theories applied in Education.
 - i) A pragmatic view of need. Maslow's hierarchy.
 - ii) Achievement motivation.
- d) Role of motivation in class room learning.

CHAPTER.III PROCESS OF SOCIALIZATION IN EDUCATION.

- a) Definition and its importance in Education.
- b) Criteria for socialization.
- c) Role of social agencies in socialization.
 - i) Family ii) School iii) Peer groups iv) Mass Media

CHAPTER.IV THE DETERMENT OF THE ADOLESCENCE BEHAVIOUR.

- a) Adolescence age of transition (problems)
- b) Specific development characteristics of adolescents
 - i) Physical ii) Social iii) Mental iv) Emotional.
- c) Interest and Drives of adolescents.
 - i) Social ii) Recreational iii) Personal iv) Vocational.
- d) Delinquent behaviour and its remedies.

CHAPTER.V FOUNDATION OF PERSONALITY DEVELOPMENT.

- a) The nature of personality and its determinants.
 - i) Genetic ii) Social iii) Cultural iv) Mental
- b) Theories of Personality and their importance in Education.
 - i) Type Theory ii) Social learning Theory iii) Psychoanalytic Theory.
- c) Personality Assessment.
 - i) Projective Techniques ii) Personality Interviews.

CHAPTER.VI MENTAL HYGIENE IN EDUCATION.

- a) Definition. objectives and functions of mental hygiene.
- b) Foundation of mental health in school.
- c) Causes of teacher and student maladjustment.
- d) Programme to improve teachers and students mental health.

**M. ED. PAPER III (COMPULSORY)
EDUCATIONAL RESEARCH AND STATISTICS
IN BEHAVIOURAL SCIENCES**

OBJECTIVES OF THE COURSE:-

After completion of this course students are expected to:-

1. understand fully the meaning, importance and uses of research in behavioural Sciences.
2. be able to apply scientific method for the solution of educational problems.
3. be able to construct research tools and use them in research studies.
4. be aware of the different statistical methods for data analysis
5. be in a position to write Research Reports and evaluate them.

A. EDUCATIONAL RESEARCH.

1. Nature and purposes of Research.

- a) Meaning of Research.
- b) Stages in the development of Scientific Research.
- c) Characteristics and importance of research.
- d) Steps of scientific methods.
- e) Types of educational research.
- i) by purpose ii) by method.

2. Problems, Selection and Preparation of Research Plan.

- a) Principles of the selection of topics.
- b) Definition, analysis and statement of the problem.
- c) Formulation of Hypothesis and Objectives.
- d) Research design and research subjects.
- e) Outlining the research plan.

3. Importance of review.

- a) Importance of review.
- b) Purpose of review.
- c) Scope of review.
- d) Conducting a review of literature.

4. Nature of Hypothesis.

- a) Definition of Hypothesis.
- b) Types of Hypothesis.
- c) Importance of Hypothesis.
- d) Evaluation of Hypothesis.

5. Population and Sampling designs.

- a) Simple random selection.
- b) Systematic samples.
- c) Stratified sample.
- d) Multi-stages sample.

6. Tools of research:

- a) Self reports. Check List. Rating scales and Ranking scales.
- b) Interview and questionnaire.
- c) Tests and Inventories.

7. Preparation and Evaluation of Research Report.

Format of report. Style, Construction and placement of tables and figures, Foot notes, Abbreviating and Reference, Bibliography Appendix and Index and Evaluation of research report.

B. STATISTICS IN EDUCATION:

1. a) Importance of Statistics in Life & Education.
b) Use of Statistics in Education.
2. a) Drawing up frequency distribution, mid point of distribution,
b) Graphic representative of distribution Frequency Polygon and Histogram.
3. Measures of Central Tendency Calculation of Mean. Median and Mode.
4. Measures of Variability. Calculation of Range, Quartile deviation and standard deviation.
5. Normal Distribution Curve, Area under normal curve, divergence from the Normal curve.
6. Measures of Relationship:
Meaning of correlation. calculation of correlation of coefficient from un-grouped data.
7. Sampling Error, Standard Error of the Mean and Standard Deviation.
8. Testing experimental hypothesis, Chi-Square Test.

BOOKS RECOMMENDED:

| 8. Dr. Ehsanullah | Taleemi Tahqeeq (Urdu) |
| 9. Garret H.E. | Statistics in Education. |

M. ED. PAPER IV. (COMPULSORY) TESTING & EVALUATION

OBJECTIVES:

After studying the course students teachers are expected to:-
i) Be able to understand the modern concepts of Testing.
Measurement and Evaluation.

ii) Be able to apply effectively Suitable Techniques of
Measurement and Evaluation.

iii) Possess adequate knowledge of the Principles of
Measurement and Evaluation.

iv) Be able to evaluate the different tools used
in the process of evaluation.

v) Be able to plan & construct appropriate class room test and use
other evaluation Techniques according to given objectives.

CHAPTER-I

EDUCATIONAL TESTING, MEASUREMENT AND EVALUATION

a) Definition.

b) Concepts.

c) importance and scope.

CHAPTER-II

TOOLS OF EVALUATION

a) Measuring Tools:

Rating Scale, Ranking Scale, Sociometric Scale and Test.

b) Non-measuring tools.

Cumulative Record, Anecdotal Record, Interview, Case Study.

Questionnaires, Observations, Checklists, Situational, Techniques
and Psychodrama.

CHAPTER-III

EDUCATIONAL AND PSYCHOLOGICAL TESTS.

a) Ability Test-Need, importance and uses.

b) Personality Test-Need, importance an uses.

CHAPTER-IV

TYPES OF ABILITY TEST.

a) Intelligence Test (Individual & Group)

i) Definition. ii) Importance. iii) Types.

b) Aptidute Test (Individual and Group)

i) Definition. ii) importance. iii) Types.

- c) Achievement Test.
 i) Definition. ii) Importance. iii) Types.

CHAPTER-V MAKING CLASS ROOM TEST.

- a) Planning.
- b) Preparation.
- c) Tryout.
- d) Item writing and analysis.
- e) Preparing a final form of test.
- f) Making of answer key and scoring key.

CHAPTER-VI CHARACTERISTICS OF A GOOD TEST.

- a) Reliability.
- b) Test-re-Test. ii) Equivalent. iii) Split Half Method.
- iv) Calculation of Reliability coefficient.
- b) Validity.
- i) Rational (a) Content Validity (b) Face Validity.
- v) Imperial. iii) Concurrent. iv) Congruent.
- v) Calculation of Validity coefficient.
- c) Objectivity.
- d) Usability.
- e) Interpretability.

BOOKS RECOMMENDED.

7. Siddiqui. A.A.

M. ED. PAPER V (COMPULSORY) CURRICULUM PLANNING & DEVELOPMENT.

OBJECTIVES OF THE COURSE:-

- The course is designed to achieve the following objectives.
- To introduce student teachers to the basic considerations of curriculum planning.
- To acquaint them with approaches and procedures for the curriculum planning.
- To equip them with basic skills and competencies to analyse current curricula in schools.
- To deepen their understanding in curriculum development in Pakistan in the light of National Policies and Plans.
- To enhance their knowledge enabling them to apply theory into practice.

PART. I CURRICULUM PLANNING

Unit.1 Basic Consideration in Curriculum Planning

- Definition
- Components
- Ideologies
- Concepts
- Models

UNIT.II CURRICULUM PLANNING PROCESS

- Bases of Curriculum Planning
- Need of Planning Curriculum.
- Need of setting goals/aims/objectives.
- Fundamental Operations in curriculum planning.

UNIT.III CURRICULUM PLANNING AND SOCIO-CULTURAL ANALYSIS:

- Definition of Society/Culture.
- Socio-Cultural Analysis with reference to following system.
- Social System.
- Political System.
- Economic System.
- Communication System.
- Technological System.
- Morality System.
- Religious/Belief System.
- Aesthetic System.

PART II CURRICULUM DEVELOPMENT

UNIT IV- CURRICULUM DEVELOPMENT IN PAKISTAN

PART. II CURRICULUM DEVELOPMENT

- (a) What is curriculum development?
- (b) Curriculum development in the light of various National Education Policy & plans.
- (c) Curriculum Development Agencies
 - Role of Curriculum wing Islamabad
 - Role of Provincial Bureaus of Curriculum
 - Text Book Boards
 - Provincial Institute of Teacher Education (PITE)
 - Teachers as Curriculum Developers

UNIT. V. CURRICULUM DESIGNING

- SWOT (Strength. Weaknesses. Opportunities and Threats)
- Analysis of existing curriculum.
- Need and importance of test books in curriculum development.
- Criteria for the selection of the content of the text books.
- Field Micro-Testing.
- Implementation of curriculum in Schools and feedback.

PAPER OA-I

EDUCATIONAL PLANNING AND DEVELOPMENT

OBJECTIVES :-

1. To understand the meaning and importance of planning and development.
2. To identify the Socio-Economic indicator.
3. To understand the concept of demography.
4. To gain Knowledge of important issues of a demographic nature.
5. To be able to have a clear idea of consumption and investment as aspect of Education.
6. To Evaluate the role of Education as an agent of National development.
7. To asses the role of education in dealing with social traditions and taboos.
8. To understand and identify Impact of political pressure on Educational planning and management.

COURSE OF STUDIES:-

1. OBJECTIVES OF PLANNING AND MANAGEMENT WITH RELATION TO DEVELOPMENT.
 - a) Meaning of development.
 - b) Measurement of development: National or Social account.
 - c) Socio-Economic indicators of development.
2. DEMOGRAPHIC CONSIDERATION IN EDUCATIONAL PLANNING.
 - a) Population.
 - b) Census.
 - c) Population movement and changes.
3. EDUCATIONAL AS AN INVESTMENT IN THE DEVELOPMENT OF HUMAN RESOURCES,
 - a) Education-consumption or investment.
 - b) Education-An agent of National development.
 - c) Man power and employment.
4. SOCIO-POLITICAL CONSIDERATION IN EDUCATIONAL PLANNING.
 - a) Impact of planning on society.
 - b) Role of education in dealing with social traditions and taboos.

- c) Education as an effective means of social change.
- d) Impact of political pressure in Educational planning and management.

M.ED. OPTIONAL PAPER IV

(IN LIEU OF "INDIVIDUAL STUDY" OR "COMPUTER IN EDUCATION & RESEARCH" OR "FUNCTIONAL ENGLISH" FOR ALL GROUPS)

INDIVIDUAL STUDY:

COURSE TITLE CURRICULUM PRACTICUM.

OBJECTIVES:

1. To extend students, knowledge of curriculum content and formats at macro and micro levels through the investigation of a variety of curriculum documents types.
2. To develop an in-depth appreciation of the concepts of scope and sequence in curriculum within year levels and across the primary/secondary school spectrum.
3. To acquaint the students with the principles, method and strategies of curriculum evaluation with special emphasis on the purpose of review for effectiveness.
4. To apply skills in the formulation of curriculum documents and in devising criteria for curriculum evaluation.

COURSE COMPONENT:

Each students must undertake a short personal revision of Section 1 to 3 consultation with his/her study supervisor as an introduction to the Individual Study Practioun.

At the conclusion of the revision study the student will choose from other Section 4 Option I or Section 5 Option II as an individual study through which he/she will demonstrate an ability to make practical application of the therotical studies in curriculum.

SECTION 1. CURRICULUM FRAMEWORK.

Curriculum at the Classroom (Micro) Level.

Curriculum at Organizational (Micro).

School or System Level.

Components of Curriculum Documents.

Interpreting Curriculum Documents.

Curriculum Overviews-A variety of models.

SECTION 2. THE BREADTH AND EXTENT OF CURRICULUM.

Concepts, Scope and Sequence.

Developmental Objectives within Curriculum Continuity.

How Theories of Learning inform Curriculum Content.

Concept of KG to Matriculation Curriculum.
Curriculum Subjects/or Integration.

SECTION 3. EVALUATION OF CURRICULUM.

Purposes of Evaluation - School level

Individual Teacher Level.

Levels of Evaluation

Classroom Effectiveness.

Strategy/Learner Matching.

Systemic Effectiveness.

Usefulness to Practitioner

General Principles of:

Evaluating Curriculum, Purpose, Process, Expectations.

TASK OPTION. 1

SECTION 4. APPLICATION TO CURRICULUM DEVELOPMENT.

Formulation of Curriculum Frameworks.

Content Model

Concept Model.

Developing Scope and Sequence Overviews-

Class room level. School Level.

Developing Progressive Outcomes Statements.

TASK OPTION. 2

SECTION 5. APPLICATION TO CURRICULUM EVALUATION.

Applying Outcomes Statements as Evaluative Tools.

Developing Criteria for Evaluation of

a) Student Learning.

b) Curriculum Content Appropriateness.

c) Teaching Effectiveness.

Applying Criteria for the Assessment and Evaluation of
Curriculum Effectiveness.

**M.ED. OPTIONAL PAPER IV
(IN DIEU OF "INDIVIDUAL STUDY" OR "COMPUTER IN
EDUCATION & RESEARCH" OR FUNCTIONAL ENGLISH"
FOR ALL GROUPS)**

FUNCTIONAL ENGLISH

OBJECTIVES:-

It is an obvious fact that the standard of English in Pakistan is deteriorating day by day. Therefore, it is desirable and necessary than an optional paper of English Language should be Introduced at M.Ed. Level. It is that this curriculum will help in achieving the following aims and objectives.

- a) To acquaint the students with the fundamental and the most essential rules of English Grammar.
- b) To Increase their efficiency in English Language.
- c) To enable them to write and speak English correctly and fluently.
- d) To enable them to avoid common errors.
- e) To enable the students to express their ideas and thoughts clearly.
- f) To improve the power of comprehension.

COURSE CONTENT:

- A- The basic terminology of English Grammar.
- B-
 - a) The correct use of articles.
 - b) The correct use of preposition.
 - c) The agreement of the subject with the verb.
 - d) The change of voice; from active to passive and from passive to active.
 - e) Change of Narration; (Direct and Indirect)
 - f) Idioms and phrases:
 - g) The construction of negative and interrogative sentences.
 - h) The formation of nouns and adjectives from verbs.
 - i) Tenses.
- C- The study of common errors.
- D- Composition:-
 - a) Letter-Writing.
 - b) Essay-Writing.
 - c) Dialogue- Writing.
 - d) Report-Writing.
- E- Comprehension-Practice.
- F- Precise Writing.

RECOMMENDED BOOKS:

1. Vivian M. Rosenberg
Reading Writing & Thinking.

M.ED. OPTIONAL PAPER-IV
(IN LIEU OF "INDIVIDUAL STUDIES" OR "FUNCTIONAL ENGLISH" OR "COMPUTER IN EDUCATION & RESEARCH FOR ALL GROUPS)

COMPUTER IN EDUCATION & RESEARCH

The paper will consist of two parts:-

- i) Theory 60%
- ii) Practical 40%

OBJECTIVES:

- a) To promote the computer literacy.
- b) To familiarise with the jargon of computers.
- c) To prepare the students to understand the effects of computer in education, and demonstrate a good knowledge and understanding of the techniques used to solve problems.
- d) To enable the students to describe particular computer applications in terms of data preparation, flow and processing requirement.
- e) To develop the knowledge of computer usage in education.
- f) To enable the teacher to use computer in educating their students.
- g) To enable the student-teachers to prepare their educational records.
- h) To enable the student to prepare their lesson plan, thesis, assignments etc.

HISTORY OF COMPUTER:

Definition & Types of Computer

The Five Generations: (Electronic Digital Computers)

The Super, Main Frame & Mini Computer Microcomputers.

TYPES OF COMPUTERS:

Digital & Analog Computer.

Special Purpose & General Computers.

NEED OF COMPUTER LITERACY & USE OF COMPUTERS IN:

Education and behavioural science, Business & Accounting.
Government Offices, Medical, Engineering, Communication
Printing and Publishing.

COMPUTER ESSENTIALS:

DATA PROCESSING & NUMBER SYSTEM:

- a) Data & Information.

Types of Data: Numeric, Alphabetic, Alpha-Numeric
Data processing

- b) Binary, Octal, Hexadecimal number system and their inter-conversion.

HARDWARE :

Central Processing Unit: ALU Input/Output Control Unit, Primary Storage:

Primary Storage: ROM, RAM, Units of Memory:

BIT, BYTE, KB, MB.

Secondary Storage : Hard Disk, Floppy Diskettes, Tapes.

Input Devices: Keys Board, Mouse, (Scanners Light pens).

Output Devices: Monitors, Printers, diskettes & tapes.

Type of Monitors.

Type of Printers.

SOFTWARE:

Sytem Software:

Different operating systems: DOS, UNIX, XENIX, Oracle, particularly DOS (introduction to Windows).

DOS Commands:

DIR, COPY, DISKCOPY, CHKDSK, VER, CD, RENAME, MKDIR (MD), RMDIR (RD), DEL (ETE), ERASE, FORMAT, DATE, TIME, COPY CON.

LANGUAGES:

Introduction to Programming languages: Low level & high level Languages; Machine Language, Assembly, FORTRAN, COBOL, ADA, C Language, BASIC etc.

INTRODUCTION TO PROGRAMMING IN BASIC:

Basic Commands & Statements:

PRINT, INPUT, LPRINT, GOTO, READ & DATA LET.

Loops and Conditions:

FOR & NEXT; IF & THEN & ELSE.

Screen, Drawing and Sound:

CIRCLE, LINE, LOCATE, SOUND and PLAY.

APPLICATION & PACKAGES (Preliminary introduction):

Typing & Word processing, (Word Star, WordPerfect, MS Word).

Spreadsheets, Graph, (Lotus, Excel).

Databases & Data Management (dBase, FoxPro, FoxBase),

Drawing & Graphics (Drawing Perfect, Coral Draw,

Hardward Graphers paint Brush).

INTRODUCTION TO MICROSOFT WORKS:

a) Word processor:

Typing in word processor,

Format (Justification, Fonts, Styles).

Tools (Speller/Thesaius, Search, Replace).

- b) Spreadsheet:
Columns, & Rows, format, calculations and formulate Simple.
Statistical calculations, such as Mean, Median, Mode, Frequency,
Frequency charts Charting (Graphs in Spreadsheet).
- c) Data Base:
Forms Record Field Making of Form,
Entrics, view as form or list, Search of record.
- d) Merging:
Merging of Database, Spread sheet charts and word processor
in one another.

BOOKS RECOMMENDED:

GROUP-C EVALUATION AND GUIDANCE

PAPER OC-I GUIDANCE AND COUNSELLING.

OBJECTIVES:

After studying the course, students are expected to

1. be able to understand various concepts of guidance.
2. be aware of the Nature & Historical development of guidance.
3. be able to identify areas in which Educational & Vocational guidance is needed.
4. be able to organize an effective Educational & Vocational guidance.
5. be able to develop and use tools and techniques needed for a good counselling programme.

CHAPTER I CONCEPT

- a) Old concept of Guidance.
- b) Modern concept of Guidance.
- c) Quranic concept of Guidance.

CHAPTER II NATURE AND HISTORY

- a) Meaning, Nature and Need of Guidance.
- b) History of Guidance vocational education.
- c) Guidance Movement in different countries U.S.A. France. Belgium, U.K.

CHAPTER III AREAS OF GUIDANCE

- a) Educational.
- b) Vocational.
- c) Social.
- d) Leisure Time.

CHAPTER IV LAUNCHING GUIDANCE PROGRAMME IN SCHOOL

Need, Organization - Factors involved.

- a) Guidance in Elementary Schools.
- b) Guidance in Secondary Schools.
- c) Evaluation of the Guidance programme.
- d) Problems and implications.

CHAPTER V FACTORS IN VOCATIONAL GUIDANCE

Individual interest:

Physical condition, personality characteristics,

Environmental condition,

Occupational opportunities, Status of Occupation, Financial return.

CHAPTER VI IMPORTANT SERVICES OF VOCATIONAL GUIDANCE

- a) Information services:
Importance of occupation, Nature of work, working condition, Personal qualities-needed, Preparation needed, and opportunities for advancement.
- b) Self inventory services.
- c) Personal data collecting service.
- d) Vocational preparatory services.
- e) Placement service.
- f) Adjustment service.
- g) Follow up service.

CHAPTER VII COUNSELLING

- a) Meaning, Nature and types of counselling: Directive, Client centered, Electric.
- b) Principles and Techniques of counselling: Interviews as a counselling tool. Anecdotal record, case studies, Rating scale, Cumulative record.
- c) Organizing the counselling service.
- d) Qualities of good counsellor.
- e) Preparation and training of counselling.

PAPER OC-II EDUCATIONAL & PSYCHOLOGICAL TESTING

OBJECTIVES:

After Studying the course student teachers are expected to:-

1. be able to differentiate between old and modern concepts to testing, measurement and evaluation.
2. possess adequate knowledge of the educational and psychological test.
3. be able to evaluate the student performance.
4. be able to select and use proper types of ability and personality test.

CHAPTER 1

Meaning, Concept, Importance and Uses of Educational tests.
(Achievement, Intelligence & Aptitude).
Psychological Test (Interest, Attitude, Character Adjustment).

CHAPTER 2

TESTING MEASUREMENT & EVALUATION IN EDUCATION

- i) Definition and Concept.
- ii) Role and Importance.
- iii) Types.

CHAPTER 3

MEASUREMENT OF ABILITY TEST

- a) Measurement of Intelligence Test. (Meaning, Structure, Test & Norms).
- b) Measurement of Aptitude Test. (Meaning uses, types & norms).
- c) Measurement of Academic Achievement. (Meaning, scope, steps of constructions types & norms.)

CHAPTER 4

MEASUREMENT OF PERSONALITY

Definition, Approaches and uses of Personality measurement.

- a) Measurement of Interest. (Inventories, Construction uses and Norms)
- b) Measurement of Attitude Test. (Meaning Techniques for measurement scales and uses).

CHAPTER 5

REPORTING STUDENTS EVALUATION

Importance, Criteria for reporting pupil's progress, methods of marking and reporting.

Using reporting system for various purposes.

- i) Promotion.
 - ii) Informing the parents.
 - iii) Selection of subjects.
 - iv) Choosing of carrier.
 - v) Personality Development.
- Reporting test results to parents.

BOOKS RECOMMENDED:

GROUP-C

PAPER OC-III

STATISTICS IN EDUCATION

OBJECTIVES OF THE COURSE

After studying the course students are expected to:-

1. Understand meaning, significance and uses of statistics in education.
2. Be able to differentiate between Descriptive and Inferential Statistics.
3. Be in position to calculate measures of Central Tendency.
4. Be able to apply different measures for data analysis.
5. Be in a position to inter-prate result of different statistical test.

CHAPTER-I

The Frequency Distribution.

- (a) Graphic Re-presentation.
- (b) Cumulative Percentile Graph.

CHAPTER-II

Measures of Variability.

- (a) Standard Deviation.
- (b) Combined Mean and Standard Deviation.
- (c) Coefficient of Variation.

CHAPTER-III

Calculation of Percentiles & Percentile Ranks

- (a) Calculating Percentile and Rank from Ogive.

CHAPTER-IV

Normal Probaility Curve.

- (a) Calculation based on N.P.C.

CHAPTER-V

Correlation

- (a) Group Data
- (b) Product Moment Method

CHAPTER-VI

Regression Equations

- (a) Prediction.
- (b) Standard Error of Estimate.

CHAPTER-VII

Significance of the Mean and difference between the Means.

- (a) S.E. of the mean and difference between two means.
- (b) S.E. of Coefficient of Correlation.

CHAPTER-VIII

Scaling of Mental Test.

- (a) Standard Scores.
- (b) T. Sclae.
- (c) Changing orders of merit into numerical scale.

CHAPTER-IX

Reliability and Validity of Test Scores.

- (a) Reliability.
- (b) Different methods of calculating of reliability coefficient.
- (c) Validity.
- (d) Relation of Validity to Reliability.
- (e) Item difficulty.
- (f) Item discrimination and Item analysis.

BOOKS RECOMMENDED:

Tower Book Agency Nazimabad, Karachi, 199 |

GROUP-D EDUCATIONAL PSYCHOLOGY

PAPER OD-I

THEORIES OF LEARNING AND ADJUSTMENT

OBJECTIVES OF THE COURSE:-

After studying the course student teachers are able to.

- a) Know the basic consideration to learning process and its basis.
- b) Assess the theories of learning and develop the power of decision for a reasonable theory.
- c) Analyse the process of Adjustment and Maladjustment.
- d) Able to control and solve the problems abstract to adjustment in a society.
- e) Able to handle situations of abnormality and to face the problem of psychological behaviour of person.

COURSE CONTENTS

CHAPTER 1 GENERAL NATURE OF LEARNING

- a) Explanation of learning process. Characteristics and condition.
- b) Laws of learning and its importance in teaching.
- c) Effect of learning on Human behaviour and adjustment.
- d) Base of learning (Heredity, Environment, Psychological base).

CHAPTER 2 THEORIES OF LEARNING

- a) Connectionism - Theory of learning (Thorndike)
- b) Condition theory of learning (Pavlov)
- c) Gestalt theory of learning (Kohler)
- d) Comparative study of the theories.

CHAPTER 3 BASIC CONSIDERATION OF LEARNING

- a) Motivation and learning.
- b) Individual Differences and learning bases of the individual differences.
- (c) Role of other factors in Learning process.
 - i) Social Factor ii) Emotional Factor iii) Glandular Factor
 - iv) Drug as a Factor v) Unconscious Factor

CHAPTER 4 ADJUSTMENT AND MALADJUSTMENT

- a) Analysis of Adjustment and Maladjustment.
- b) Problems and sources of Adjustment.
- c) Criteria of a good Adjustment.
- d) Role of Frustration and Conflict in adjustment.

CHAPTER 5 ROLE OF MECHANISM IN ADJUSTMENT

- a) Role of Defensive Mechanism in adjustment
- b) Role of coping mechanism in adjustment

- i) Withdrawal ii) Negativism iii) Fantasy iv) Day Dreaming
- v) Regression vi) Fixation
- c) Adjustment by abnormal fear (Repression, obsession and compulsion).
- d) Role of psychosomatic illness in adjustment. (Hysteria, psychasthenia, Neurasthenia, Anxiety Neurosis).

CHAPTER 6 GENERAL ADJUSTMENT MECHANISM IN EDUCATION

- a) Rationalisation b) Projection c) Sublimation
- d) Compensation e) Identification f) Attention getting etc.

BOOKS RECOMMENDED:

1. Shaffer Shoben
2. Lindgren.

The Psychology of Adjustment.
Psychology of Personal and Social Adjustment.

3. Lehner and Kube.

The dynamics of Personal Adjustment.
Psychology in Education.

4. Soreson

Theories of Learning.

5. Hillgard E.R.

The Nature and conditions of learning.

6. Kingsely N.L.

How to Learn.

7. Bode, B.H.

Education for life adjustment.

8. Douglass.

GROUP D EDUCATIONAL PSYCHOLOGY

PAPER OD-II

THEORIES OF PERSONALITY DEVELOPMENT

OBJECTIVES:

After studying the course student teachers are able to:-

- a) Understand the process of personality development and its problems.
- b) Apply the knowledge of the basis and factors influencing personality of a child in school setting.
- c) Solve the problems and obstacles to personality development.
- d) Understand the theories of personality development and justify the sound factors of personality development.
- e) Develop a sense of appreciating new trends and modern sociological factors to Organise and affect the personality of a child.
- f) Able to assist the personality of a person with various measurement tests.

COURSE CONTENT

CHAPTER 1 BASIC CONSIDERATION OF PERSONALITY

- a) Old and new concept of personality.
- b) Organising factors of personality.
- c) Types of personality and their characteristics.

CHAPTER 2 BASES OF PERSONALITY DEVELOPMENT

- I a) Heredity
- b) Environment
- c) Culture
- d) Psychological Motivation.
- II. Obstacles to personality development.
- a) Physical defect b) Unpleasant environment
- c) Psychological conflicts and complexes.

CHAPTER 3 THEORIES OF PERSONALITY

- a) Study of various theories of personality
- i) Structural Theory ii) Psychological theory iii) Sociological theory
- b) Critical Evaluation. Of the old and new theories of personality.

CHAPTER 4 SOCIOLOGICAL FACTORS AND PERSONALITY DEVELOPMENT

- A) i) Family and Personality
- ii) Activity group and personality
- iii) Culture and personality

- iv) School and personality
- v) Government and personality.
- vi) Religion and personality.

B) Role of others social agencies in Personality Development.

- i) Clubs ii) Association iii) Press iv) Radio and T.V v) Films

CHAPTER 5 MEASUREMENT OF PERSONALITY:

A) Study of Various measurement tools of Personality.

- i) Case study
- ii) Clinical Method
- iii) Interview and questionnaire methods
- iv) Rating Scale

CHAPTER 6 IMPORTANT PERSONALITY TEST:

I. History of Personality Tests.

II. Important personality Tests.

- a) Minnesota Multipathasic Personality Inventory (M.M.P.L.)
- b) Projective Test.
- c) Thematic Projective techniques.
- d) Rorsehach Test.
- e) Thematic Appreciation Test (T.A.T.)
- f) Words Association Test.

BOOKS RECOMMENDED:

- | | |
|-------------------|---|
| 1. Brown F.J. | Educational Psychology. |
| 2. Irror Morrich. | Sociology and Education. |
| 3. Seren Son. | Psychology in Education. |
| 4. Murphy L.B. | Special Behaviour and child
Personality. |
| 5. Skinner | Educational Pshychology. |
| 6. Stranger | Personality Development. |

GROUP-D EDUCATIONAL PSYCHOLOGY

PAPER OD-III

ABNORMAL PSYCHOLOGY:

CHAPTER I THE NATURE AND SCOPE OF ABNORMAL PSYCHOLOGY

- a) Common concept of abnormal psychology.
- b) Different view points.
 - i) Organic ii) Functional iii) Psychoanalytic.
- c) Purpose of studying abnormal psychology.
- d) Abnormal psychology and related fields.
 - i) Medicine ii) Mental hygiene iii) Sociology iv) Law v) Education.
- e) Historical perspectives.

CHAPTER II PSYCHOGENIC CONCEPTS

- a) Complex b) Fantasy c) Compensation
- d) Rationalisation e) Sublimation f) Projection
- g) Displacement h) Regression i) Identification
- j) Negativism k) Withdrawal l) Transference.

CHAPTER III INTELLECTUAL ABNORMALITIES:

- a) Mental Deficiency (Feeble-mindedness).
 - i) Amentia. (Definition, Grades, Causes and Treatment)
 - ii) Dementia. (Definition Causes and Treatment)
 - iii) Idiot savants. (Definition and characteristics).
 - iv) Constitutional psychopathic inferiority. (Definition, causes, symptoms and characteristics).
- b) Mental Superiority.
 - i) Genius. (Definition, theories, treatment of the brilliant child).

CHAPTER IV THE PSYCHONEUROSES:

- a) Definition of Psychoneuroses and kind.
 - i) Psychasthenia. (Definition, characteristics, symptoms causes and treatment.
 - ii) Neurasthenia. (Definition characteristics, symptoms, causes and treatment).
 - iii) Anxiety Neuroses. (Definition, characteristics, symptoms, causes and Treatment.
 - iv) Hysteria. (Definition, forms, causes, theories, symptoms and treatment).

CHAPTER V THE PSYCHOSES:

- a) Definition of Organic Psychoses and kind.
 - i) Drug psychoses, (causes, and kinds).
 - ii) Syphilitic Psychoses. (Causes symptoms & stage of development).
 - iii) Senile Psychoses. (Causes, forms and characteristics).
 - iv) Traumatic Psychoses. (Causes symptoms and characteristics).

- b) Definition of Functional Psychoses and Kinds.
- i) Schizophrenia. (Nature, symptoms, types, theories causes and prevention).
- ii) Manic Depressive. (Nature, symptoms, types, causes and prevention.
- iii) Paranoia (Nature, symptoms and causes)
- iv) Epilepsy. (Nature, forms, theories as to causes)..

CHAPTER VI ABNORMALITIES OF SLEEP AND DREAM.

- a) Sleep.
 - i) Nature of sleep. ii) Theories of sleep. iii) General factors about sleep. iv) Abnormalities of sleep. (Insomniac, Night terror, and somnambulism).
- b) Dream.
 - i) Nature of dream. ii) General characteristics of dream. iii) Types of dream. iv) Psychoanalytic theory./of dream. v) Psychoanalytical interpretation.

CHAPTER VII HYPNOSIS AND SUGGESTIBILITY:

- a) Hypnosis.
 - i) Nature of hypnosis
 - ii) Methods of inducing hypnosis
 - iii) Facts about Hypnotism
 - iv) Effects of hypnosis
 - v) Theories of hypnosis
- b) Suggestion
 - i) Nature of suggestibility
 - ii) Kind of suggestion
 - iii) Factor influencing suggestibility

CHAPTER VIII SOCIOPATHIC PERSONALITY DISTURBANCES AND ANTI SOCIAL AND SYSSOCIAL RELATIONS.

- a) Description and theories of psychopathy.
- b) Causes of socially denial behaviour.
- c) Juvenile delinquency and its treatment.

BOOKS RECOMMENDED:
