

Govt.College of Education,F.B.Area,

Block 15 Karachi

Mid term Exam.2023

B.Ed.(Hons) Semester V

Max.Marks 20

Biology(DTE 541)

Time 1.5 Hrs.

Note:Section A is compulsory.Attempt any 4 and any 2 questions from sections B and C respectively.

SECTION "A"

(05 Marks)

Q.NO.1.Multiple choice questions.

i.The plant used by Mendel in his study was-----.

✓Pea *Corn *Rice *Mango

ii.It is a sex linked disorder

*Rabies ✓Haemophilia *Leukaemia *COLDS

iii.Use and disuse of organs is a part of theory by---

*Darwin *Morgan *Sutton ✓Lamarck

iv.Air possesses 78% of-----.

✓Nitrogen *Oxygen *Helium *Hydrogenp

v.Human teeth are-----.

*Thecodont *Diphyodont *Heterodont ✓All of these

SECTION "B "

(08 Marks)

(Short answer questions)

✓Q.No.2.Name and define any four branches of Biology.

✓Q.No.3.What is symbiosis?Give its types with examples.

Q.No.4.Draw the nitrogen cycle.

✓Q.No.5.What do you mean by autosomal genetic disorders?Discuss any one.

✓Q.No.6.What is binomial nomenclature?Give some examples.

**Department of Teacher Education
University of Karachi**

**B. Ed 5th Semester (04 Year Program)
Semester Examination October, 2020**

03-11-2020 Tuesday Content Course _ General Science - Biology

SECTION B

(20 Marks)

Attempt any four short answer questions.

i. Identify the following cell organelles and write one function of each.

S#	Cell Organelle	Name	Function
1			
2			
3			
4			
5			

- ii. What are autosomal diseases? Give two examples.
- iii. Describe Watson and Crick model of double helix structure of DNA.
- iv. What is microscopy? What are the types of microscopy?
- v. Define nomenclature. Write the classification of human being.
- vi. Name the supporting tissues in plants and write their functions.

SECTION C

(30 Marks)

Attempt any three descriptive answer questions.

- i. State and explain Mendel law of independent assortment.
- ii. What is the biological method of investigation? Explain the process with the help of an example.
- iii. What are the significances of meiosis? Explain five phases of meiotic prophase.
- iv. Write down the contribution of Muslim scientists in the field of biology.
- v. Define variations. What are the causes of variations? Explain
- vi. Define evolution. What are the major differences between Darwin and Lamarck's theories?

Q2: Give short answer any four of the following questions. (8)

- i) What is meant by Bio diversity?
- ii) How the understanding of Physics help in Biology?
- iii) What are the main points of cell theory?
- iv) You are the students of Biology which career would like to adopt after studying Biology? And why?
- v) Name four Muslim Scientist and their contribution in the field of Biology?
- vi) What is Hypothesis? At what stage of the biological method, Hypothesis is accepted or rejected?

Q3: Give answer any two of the following questions in detail. (8)

- i) What is Tissue? Discuss different types of tissue found in Plant? Elaborate your answer with relevant diagrams.
- ii) What is Microscopy? How many types of Microscope? Discuss.
- iii) Define the term "Biology". How can you describe your body under different branches of biology?
- iv) Differentiate the following. *any 2*
 - a) Physiology and Anatomy.
 - b) Prokaryotic Cell and Eukaryotic Cell.
 - c) Simple and Compound Tissue.
 - d) Quantitative Observation and Qualitative Observation.

Government College of Education F.B Area Karachi.

Mid Term Examination

Subject: Biology - II

Time: 1 ½ Hours

B.Ed (Hons) 5th Semester ^{4 Year} Max Marks 20

Instruction: Section A is compulsory. Attempt any four questions from Section B and two from section C.

Q1: Choose the correct answer.

(4)

i) ----- classified all living organisms into five kingdoms.

a) Ernst Haeckel b) Carolus Linnaeus c) Robert Hooke d) Robert Whittaker

ii) ----- is the basic unit of classification.

a) Genus b) Order c) Family d) Species

iii) ----- is the study of fossils of past organisms.

a) Cytology b) Histology c) Anatomy d) Palaeontology.

iv) Al- Qanun Fil Tibb is the famous book of -----.

a) Ibn Nafees b) Abdul Malik Asmai c) Al- Farabi d) Bu Ali Sina.

v) The magnification of a light microscope is -----.

a) 1200 b) 1500 c) 1000 d) 1400.

vi) Cell Biology is also called -----.

a) Cytology b) Morphology c) Epidemiology d) Hematology.

vii) ----- involved in protein synthesis.

a) Golgi Bodies b) Mitochondria c) Plastids d) Ribosomes

viii) ----- is the mobile connective tissue.

a) Blood b) Plasma c) Serum d) Hemoglobin.

2025 biology paper topics

Short(Attempt 5)

Nitrogen cycle(draw)

Gene,mutualism,organs, chemical co-ordination ,
transpiration (terms)

Law of independent assortment

Watson and crick DNA model

Define biology and 3 branches

What is tissues ?explain plant tissues only 2
types their function and structure

Difference between photosynthesis and
respiration

Biotechnology in the field of agriculture

Prokaryotic and eukaryotic cells

Why should Biology be taught at the elementary
level – 5 points

Long(Attempt 3)

Cell Organelles with structures

Mitosis in detail.

Darwin's theory in detail.

biotic components in detail.
